

Clint Bryan Nguena

Computer Science Student - Software Developer - AI Developer (LLMs & Agentic AI)

Address: Gießen, Hesse, Germany

Phone: 0178 2103854

Email: nguenacintbryan@gmail.com

GitHub: github.com/Clintbr

Portfolio: clintbr.github.io/mein_Portfolio

PROFILE

Computer Science student with a focus on software development and Artificial Intelligence. Experienced in developing intelligent applications using Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and agentic AI systems, as well as designing modern web applications and database-driven software solutions.

Successfully completed the coursework of the first five semesters of the Computer Science degree within four semesters. Highly motivated to learn, systematic in approach, and strongly interested in productive software and web development.

Current Research: Implementation, analysis, and comparison of cross-lingual Retrieval-Augmented Generation strategies in the context of locally executed Large Language Models.

WORK EXPERIENCE

AI Analysis | *Internship II-THM, Gießen* 03/2026 – 06/2026

- Analysis of locally hosted LLMs and SLMs and integration of RAG approaches

Technologies: Python, Ollama, Node-RED, MongoDB, Qdrant, JSON

Web Developer | *SisterSchola Clinic, Darmstadt* 02/2025 – 03/2026

- Web-based application development | SMTP mail services | Software testing and debugging

Technologies: JavaScript, HTML, CSS, SQL, Supabase, Git

PROJECT EXPERIENCE

Crosslingual RAG Research | *Bachelor Project / Research Project* 04/2026 – 06/2026

- Implementation of RAG strategies using locally executed LLMs
- Analysis of retrieval and answer quality | Semantic search using vector databases

Technologies: Python, Ollama, Qdrant, BGE-M3, RAG, LLMs, DeepEval, NumPy, Pandas, Matplotlib

AI Mail Manager | *Full-Stack & AI Software Project* 08/2026 – 09/2026

- AI-powered email analysis and prioritization with a human-in-the-loop workflow
- Gmail API, OAuth 2.0, Google Gemini
- REST API with Java and Spring Boot | React/TypeScript user interface

Technologies: Java 21, Spring Boot 3, Spring Security, React, TypeScript, Tailwind CSS, Gmail API, OAuth 2.0, Google Gemini, REST API

Enterprise Ticket Management System | *Personal Full-Stack Software Project* 03/2026 – Present

- Development of a web-based ticket management system
- Role-based user management | REST API | JSON data processing
- AI-powered chatbot

Technologies: Java 21, Spring Boot 3, Spring Security, React 18, Tailwind CSS, PostgreSQL, LLM

EDUCATION

Bachelor of Science in Computer Science <i>Technische Hochschule Mittelhessen, Gießen</i>	04/2024 – Present
Focus Areas: Software Development, IT Systems, Web Technologies <i>Currently in the 5th semester (coursework from the first five semesters successfully completed within four semesters)</i>	
German Language Courses <i>Goethe-Institut, Diwan Marburg</i>	10/2022 – 11/2023
Certificates: B2 Certificate, C1 telc Hochschule	
Scientific High School Diploma	09/2019 – 06/2022
Focus: Mathematics and Computer Science	

TECHNICAL SKILLS

Programming Languages:	Java, Python, C, JavaScript, TypeScript
Web Development:	HTML, CSS, REST APIs, JSON, XML, Node.js, Vue.js, React, Tailwind
Databases:	MySQL, MariaDB, PostgreSQL, Supabase, MongoDB, Qdrant
AI & Data:	LLMs, RAG, Agentic AI, Ollama, BGE-M3, Qdrant, DeepEval, NumPy, Pandas
Operating Systems:	Linux, Windows
Tools:	Git, Docker, IntelliJ IDEA, Visual Studio Code, Node-RED
IT Fundamentals:	CI/CD Pipelines, OOP, TCP/IP, HTTP, SMTP, MQTT, Software Testing, Debugging, System Analysis, APIs

LANGUAGES

French:	Native
German:	C1 (Fluent)
English:	B2
